

Kintara Merchant Alert Bot

The Ultimate Tracking System

Core Features

- Instant Notifications

Get zero-delay Telegram alerts the exact moment the Kintara Merchant opens for donations or claims.

- Smart Auto-Polling

The bot silently checks the servers every 5 seconds in the background without draining your battery.

- Intelligent Reminders

If the donation phase is open, the bot gently reminds you every 10 minutes so you never miss an opportunity.

- Live Status Dashboard

Check the exact state of the Merchant at any time, complete with countdowns and remaining pool capacities.

Security & Multi-User Access

- Single-Use Invite Codes

Exclusive, self-destructing invite codes ensure only your trusted friends can access the bot.

- Secure Lock Screen

Strangers who find the bot are met with a locked vault. It ignores all commands until a valid code is provided.

- Independent User Settings

Every user can customize their own experience! Turn specific alerts on/off or change polling speeds independently.

Premium Administrator Tools

- Live User Management

View a real-time list of everyone currently subscribed to your bot alerts.

- Instant Revoke (Kick)

Remove access for any user with the tap of a button. They are instantly blocked from receiving future alerts.
